

# Corning® Gorilla® Glass

SnapCab, in collaboration with Corning, is opening the door to beautiful, modular, progressive elevator and wall panel designs with thin, lightweight, damage-resistant panels. The SnapCab system allows you to freely design unique interiors while making it simple to customize. Corning® Gorilla® Glass is optically clear, so your whites are pristine, your colors are vibrant, and images and logos pop! Gorilla® Glass is a blank canvas that allows you to exercise your creativity: specify any Pantone color or provide your own high-resolution imagery or logos.

## FEATURES & BENEFITS:

- ✓ Endless possibilities for custom decorating
- ✓ Personalize your cab with images, prints, or logos
- ✓ Images appear to be on the surface of the glass
- ✓ Excellent protection for your elevator's design
- ✓ Peace of mind knowing your investment is durable and tough
- ✓ Impact resistant – due to the ion exchange strengthening process
- ✓ Thin and lightweight – only 2.0mm
- ✓ Scratch resistant, non-microbial, and optically clear
